"The Coin Machines Merry-Go-'Round"

by Bill Gersh

SPEEDIER USED MACHINES ACTION

After much concentration by all in this industry for the past few months on the possibility of new machines production coming about sooner than expected, the trade seems to have at last returned to more normal effort, and once again the used machines field shows speedier action.

Leaders are of the belief that as coinmen thruout the nation come to the realization that no new equipment will be seen for many months to come, that these men will return to used machine buying, and will further continue on the theory that it is better to solidify their present business efforts, than to sit back and idly wait for the time when new machines will once again appear for sale.

It is a well known fact that raw materials are as yet extremely difficult to obtain. This situation is expected to prevail long after V-E day. There is much wonderment on the part of leading industrialists, since announcement that the Pacific war may prove a lot tougher than expected, as to whether more and still more war work will be needed to create the materials necessary to insure a complete victory over the extremely well prepared Jap. This may set back the reconversion date a great many months, regardless of the fact that Jimmy Byrnes announced the possibility of a 40% cutback on war orders on V-E day.

Statements emanating from OWI are to the effect that the Japanese war may go on for two years after the European war is over. This agency explains that the surface of Jap war effort hasn't even been scratched, and that they are geared for five years of war with plenty of materials on hand to carry on for this period and even longer if necessary. This should give pause to those who think that immediately after Germany is defeated, full production of all new equipment will get under way.

All this has caused the majority in this industry to turn back to used equipment sales. The realization that the new equipment is as yet many months away, and the fact that the trade must, and most definitely wants to continue on an active business basis, has brought used machines back into the picture stronger than ever before. These machines can, and have already proven themselves capable of, continuing this industry on a lucrative basis.

The trade will therefore find used equipment continuing on prominently for more months than is realized at the present time. There is no one in this, nor in any other industry, capable of predicting exactly when new equipment production will again be allowed.

Regardless of the fact that WPB has urged manufacturers to get prepared for reconversion, and regardless of the fact that WPB has stated that all controls with certain few exceptions will be removed after V-E day, and further that WMC also says that its controls will be eliminated, and OPA is now being urged to let go its present new equipment pricing policy, and the further fact that some are striving to reduce and even eliminate a great many taxes immediately after V-E day, on the theory that the Federal government will not need so much money to continue the war, new tax bills are still being prepared and will soon be presented.

The newly amended Limitation Order L-21 allowing parts for phonographs, amusement and gaming machines to be manufactured for "repair and renovation of used machines" only, has not in the least affected the present used machines sales market. The amended L-21 has even cut down on some other work that was in process. The general belief is that the greater majority of the manufacturers may be able to produce parts for "repair and renovation of used machines" but that even this will take some time to come to a head and production of parts in sufficient quantities to actually renovate and repair present used equipment is still sometime in the offing.

In addition, it is a known fact that the used machines being shipped today are not as good mechanically nor in appearance as they were just a year or even six months ago. The fact that parts can be manufactured has caused many to feel that perhaps machines will now be better repaired and more carefully checked and that this will help, rather than hinder, the used market to gain greater confidence from buyers thrucut the country.

"The Coin Machines Merry-Go-Round"

It is also well to remember that the average manufacturer does not believe that he will be able to produce new machines in much less than six months after he is given the official word to reconvert to former domestic products production. Tho that six months period may produce a lull in used machines sales it will not too seriously affect the general volume.

The very fact that it will take many factories as long as six months to reconvert is a safety valve for all those now engaged in the sales and purchasing of used equipment. These coinmen can therefore proceed with greater surety that their market will contine on for sometime to come.

BUSINESS EXPANSION

There are a great many coinmen who are sure that there is at present the possibility of a considerable business expansion for all this industry.

Reports are already filtering in that new men, in ever increasing numbers, are buying machines. These men usually start by purchasing a small route. So many of these new men have proven themselves capable of conducting a profitable operation that their businesses have, in many cases, increased with leaps and bounds. Some of these new men are now becoming important factors in many territories in the nation.

This, in itself, these leaders explain, is the opening wedge in the belief that there is already under way a great business expansion for all in this industry. These leaders also claim that this business will reach the apex of this spurt upon the introduction of the new, post-war machines. Since it has already started with used machines sales it will therefore head into the post-war period at full steam.

This is extremely interesting to all in this industry. An expansion of business at this time may also mean re-opening of much territory. This may come about with the new men entering into this field. These men are purchasing routes, whether of music, vending, amusement or gaming, in the belief that they can at present, and will be able to in the future, safely conduct these routes.

All this is quite exciting to the average man now engaged in this field. As he looks around his territory, he learns that there are a great many who want to enter into this business and that it is their belief that they, too, can make good in this trade. This is encouraging to the average coinman even tho he is trying desperately hard to protect his interests.

Yet, there is no doubt that if the average coinman opens up the business to the entrance of new blood, he will place himself in a major position in his territory, and will be better able to enjoy this business expansion, as well as greatly profit from it.

RETURNING SERVICEMEN

Many have come to the realization that this industry, like all others, for its own best benefit as well as for its future development and growth, should most cordially welcome the returning serviceman into its fold. And do so with the most intelligent sort of educational effort.

Many leading coinmen are already planning to hire a number of returning soldiers, aside from those men who were forced to leave them to enter into the armed forces. The average man in this business will find the returned soldier of great and remarkable worth to him. He will learn that the teamwork and the discipline which every serviceman learns will prove of great value.

The average man in this industry wants to protect himself from losing ground in his territory. This is understandable and natural. If he fears a sudden rush to grab locations from him by returning servicemen is a possibility, then this is all the more reason why he should immediately forestall any such action by employing such men.

Not only will this prove an unusually fine and patriotic gesture on his part, as well as for the entire industry, but it will also prove to be good business to employ returning servicemen. These are the men who will be given the greatest consideration by officials in every community in the nation.

Just a few weeks ago a returned soldier brought pinball back into a small Eastern state community which has not allowed these machines to operate for many years. The community, because of this soldier, voted to license such machines. Today this returned serviceman is gradually increasing his pinball route.

"The Coin Machines Merry-Go-Round"

This is but one example in the great pot which will boil and boil with many other such instances when the approximately 10,000,000 servicemen return to seek positions in industry again. It is indicative of the thoughts, sentiments and opinions of the average American community as regards the returning members of the armed forces.

Like every business man, the coin machines operator, jobber or distributor must also figure just what is of greatest worth to him and what is best for him today as well as for tomorrow. He must plan ahead for tomorrow. There is no doubt anymore that the coming post-war era will absolutely revolutionize this business. So many changes will take place that the average coinman must prepare himself to maintain an open mind and thereby be a ble to keep step with each and every change as it comes into being.

The fact that millions of returned servicemen are coming back means that many of these men can become members of this industry as mechanics, helpers, route men, supervisors, managers, operators, jobbers, etc. This is something for everyone engaged in this business to give much careful study to at this time.

This is something that is extremely important to the future better welfare of all concerned with this coin operated machines industry.

THE ARCADES

With army camps closing around the country and with many war work centers beginning to shift personnel, there is a general belief that many arcades will soon close their doors. And that the great expansion which the arcades enjoyed during the wartime period will soon be a thing of the past.

This is a fallacy on the part of those coinmen who are of the belief that the arcade is strictly based on a grouping of a certain type of transient trade. There is no doubt that some of the arcades which catered exclusively to the personnel of the armed forces and war boom centers may close. But these are not the arcades which are the backbone of this field.

The arcade man, to exist at all, as a profitable going business, must be a showman. There is an old adage in the industry that showmanship made arcades and that arcades make showmen. This is more true now than ever before.

The arcade is based upon showmanship. The owner of an arcade depends upon this almost indefinable trait to keep his business moving and to keep profits rolling into his coffers. Only by an understanding of what showmanship is and means can the arcade owner go on ahead in his field.

Many times The Cash Box has brought forth the various showmanship factors displayed by the old timers in the arcade business. These men have not only gone ahead during this wartime period but they have most definitely established the arcade for the future. There are a great many favorable factors for continued arcade success.

There is no doubt that the average city officials believe in keeping control over large numbers of machines. This is easily exercised by the average arcade, which has all its machines under one roof and can keep minors and rowdys and all other undesirables away from them. The arcade has developed into a regular entertainment center and has thereby satisfied a definite need.

Only by a good knowledge and understanding of showmanship can the arcade continue its present lead. The man who knows just where and how to place his machines. How to switch these same machines around so that they look new and different and more appealing to those who enter the place regularly. Who can cook up a new attraction at regular intervals. Whose arcade has that sort of homey atmosphere and who understands the sort of warmth the public likes - is always successful in the arcade business.

The modern arcade is the result of much experimentation and experience and just good old fashioned common sense. It will carry on even more strongly in the post-war period. Its future development into possible "theatres of amusement", after it has cleared up many inner problems, will lead it to new greatness in this field.

MORE SIGNERS TO THE PLEDGE

Trade Enthusiastic. Ask That All Signers Of Pledge Be Made Public

NEW YORK — A few issues back, The Cash Box once again introduced its pledge for the benefit of its many new subscribers and also for those old subscribers who may have missed signing it when it first appeared.

So many new signatures have arrived since then that the pledge is once again being repeated in the hope that those who may have missed it a few weeks ago will take the time to sign it now.

The pledge was originally introduced by The Cash Box in May, 1944, for the express purpose of having the members of this industry come together of their own free accord to pledge to each other that the merchandise and machines which they would sell, whether in their own territory, or anywhere in the nation, would be specifically as they stated these machines to be.

This, it is generally believed by the trade, is the one and only and the best method which the trade can use at this time to help eliminate shipments of bad machines.

Even as this is being written The Cash Box has received complaints from various noted buyers thruout the country that machines purchased in the past few months have been anything but what they were specified to be. This has hurt the confidence of a great many buyers and has slowed business to some extent.

It is therefore the hope of the leaders of this industry, who have already pledged themselves to give the trade exactly the type of machines they specify they will ship in advance, that everyone engaged in the selling of even one or a thousand machines will sign the pledge and adhere to it.

THIS IS THE PLEDGE ORIGINATED AND SPONSORED BY "THE CASH BOX" AND WHICH ALL SELLERS IN THE INDUSTRY WERE ASKED TO SIGN AND LIVE UP TO. IF YOU HAVEN'T YET SIGNED THIS PLEDGE, DO SO NOW, RETURN TO "THE CASH BOX" AND RECEIVE PRINTED CERTIFICATION FOR DISPLAY IN YOUR OFFICES.

"I PLEDGE"

TO GIVE COMPLETE, TRUE AND FULLY SPECIFIC INFORMATION REGARDING THE CONDITION OF ALL MACHINES AND SUPPLIES I OFFER FOR SALE, EITHER ON MY PREMISES OR PRIOR TO SHIPMENT, AND SO CRATE MY SHIPMENTS THAT DAMAGE WILL BE MINIMIZED OR ELIMINATED.

DISC-HITS BOX SCORE OPENS WITH THIS ISSUE

JACK "ONE SPOT" TUNNIS TO CONDUCT NEW PAGE FOR RECORD BUYERS

Beginning with this issue of The Cash Box, Jack "One Spot" Tunnis famous publisher of record systems for the music trade, opens a new section for music men.

Here are listed the outstanding hits in the method of their popularity compiled from thruout the nation each week. This is the most exact listing of record hits ever compiled. This is admitted to by all leading record firms in the country who agree that Jack Tunnis' method of listing the hit tunes for each week is the finest yet arranged.

In addition, a box score sheet is also contained with the listing which is based on the purchase of 1,000 records. In short music ops purchasing at the numbers listed for each record on the basis of 1,000 records for the entire listing will find that they haven't made a bad buy.

It is the hope of The Cash Box that all music men will rally 'round Jack "One Spot" Tunnis in his new "DISC-HITS BOX SCORE" by mentioning the records they find best in their territories.

PACKARD MFG. CO. TO WAX RECORDED TELEVISION PROGRAM

NEW YORK — The New York World-Telegram, one of the leading evening papers in this city, reported that Packard Manufacturing Co. of Indianapolis, Ind., have developed a process for recording television programs on wax records and plan a public demonstration, probably within a month. This was disclosed to the press by Raymond Binney manager of Packard's experimental division.

Mr. Binney said that Packard is making plans to manufacture and sell television discs after the war. He also stated that they may retail for only 20% above the price of ordinary phono records.

Homer E. Capehart who heads Packard, and who is also Republican candidate for the Senate from Indiana, is reported to have been granted a contract for the development work by the Video-Graph Corp. of Michigan.

Mr. Binney also stated that Packard had successfully experimented with the transmission of television programs over a distance of 100 miles with ordinary telephone lines and predicted an enormous saving over the expensive coaxial cables now in use.

N. Y. MUSIC OPS ASSN. CLICK WITH BIG DINNER

NEW YORK — With the Starlight Roof of the Hotel Waldorf-Astoria crowded to the rafters, the Automatic Music Operators Association of this city enjoyed the most successful entertainment and dinner in all of its history.

Present was the largest crowd to ever yet attend one of these annual affairs. Visitors from all over the eastern territory and many from out of town were present.

Entertainment was, as usual, the finest obtainable in the city with many of the leading recording stars coming to the affair to help entertain the music coinmen present.

The entertainment started while the dinner was still on and continued into the wee hours. Every prominent music man in this section was present at this affair along with representatives of the various phono factories and the record manufacturers.

CASH REBATE CONTRACTS

NEWYORK—Cash rebate contracts start with this issue. These return as much as 10% cash at the end of the contract year for all advertising placed in The Cash Box.

OMAHA'S CITIZENS WRITE TO PRESS ABOUT PINBALL

OMAHA—Having just undergone a crusade regarding the evils of pinball Omaha's coinmen were extremely pleased, on two different days, to find the following items, written by citizens of their community, appear in the Omaha World-Herald.

"Evidently", writes Mrs. O. E. Peterson of Omaha to this newspaper, "nobody's pulse beats concerning the new pinball drive.

"Personally I think it's pretty lousy. Somebody gave two bits to her son to buy a lunch (just where can he get a lunch for 25 cents?) and he spends it. If she can't trust sonny boy with money why don't she make him a lunch?

"Most places have a nice crowd of fellows in their place and I think they are dong a wonderful job of keeping these boys off the streets."

James A. Brunson of Omaha wrote in as follows, "While it is true, perhaps, that a few parents have complained about their children spending their allowance or their lunch money in pinball machines, it is equally true, perhaps, that many parents would approve the pinball machines as being a good, clean pastime for their children to enjoy.

"I cannot believe the playing of pinball or other coin operated novelty machines will have a deleterious effect upon the youngsters. To the contrary, I do believe depriving the modern day children of innocent fun will force them to seek other forms of amusement which could be more harmful than playing and spending a few nickels on pinball machines.

"What Omaha children need is more wholesome recreational supervision, and not so much petty 'snoopervision' on the part of a political job holder."

The above two items definitely bring out the new trend toward greater liberality on the public's part. These items are among the best which have yet appeared in favor of pinball from the citizens of any community.

They not only helped Omaha's pinball ops but if newspapers will give the same publicity to all citizen's letters they will help others in this industry thruout the country.

Chief Petty Officer Mac Churvis wha is naw with Bell Products Campany of Chicaga. Mac has been honorably discharged and reports that he is now back in swing as far as cain machines are cancerned. Every sa often, tha, Mac lapses back inta salty naval talk and this gets a big hand fram the boys who have spent sametime with him since his return from Naval service.

"BALLY" AWARDED SECOND STAR

A second star has been added to the Army-Navy "E" Flag flying over the "Bally" plant, according to a statement by Herb Jones, Vice-president and works manager of Lion Manufacturing Corp. "The second star", Jones pointed out, "like the original flag and the first star, was awarded officially to the Lion Manufacturing Corp. Actually this is the organization known to the coin machine industry as Bally Manufacturing Company, and the second star is further proof of the vital contributions of the coin machine industry to the assured victory of the United Nations."

ED RAVREBY, Owl Mint Machine Co., Boston, N.Y. who operates one of Broadway's leading arcades, claims if he stands outside his doors, sooner or later he'll meet all Boston's visitors. Ed spends most of his time in New York City now, and AL and JACK RAVREBY come along once in a while to lend a hand...SAM SIEGEL, Grand Amusement Co., Detroit, Mich. visited his family in New York City...HUMBERT BETTI, H. Betti & Sons, Union City, N.J. taking over the entire business by himself as his four sons are in service and scattered over the world - Italy, France, England and the South Pacific.

M.M. RUTHERFORD, Rutherford Enterprises, Pampa, Tex. runs a sale of pins, and wants counter arcade games...LESTER FLECK, Ohio Specialty Co., Cincinnati, O. shipping plenty of his arcade machine "See-A-Freak"...L.O. NEW HOME OF *Bally* PRODUCTS

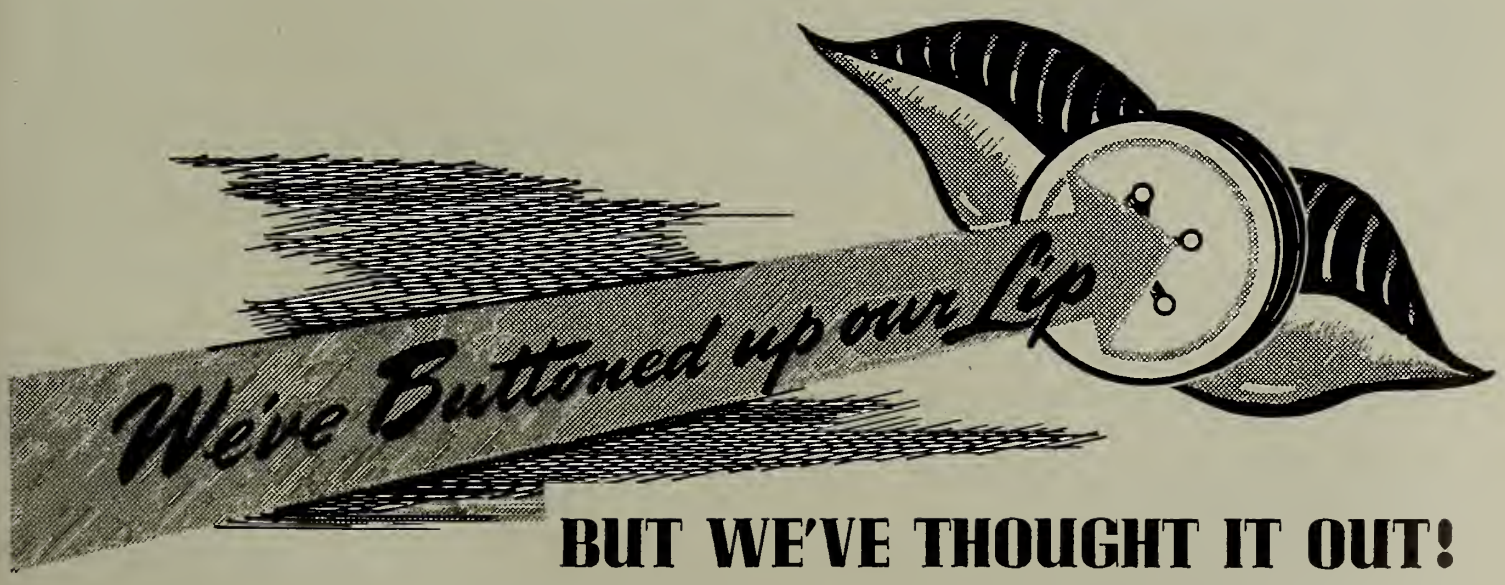
MODERN 125,000 SQUARE FOOT FACTORY TO TRIPLE BALLY PRODUCTION

Future plans of the Bally organization call for production of new games immediately after the defeat of the enemy. For this purpose the new enlarged Bally plant, illustrated below, and now in full production on war products, is designed to insure rapid conversion to the products of peace.

In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making coin-operated equipment. Lion Manufacturing Corporation, manufacturers of Bally games and venders.

★ FOR VICTORY . . . BUY U. S. WAR BONDS ★



BUT WE'VE THOUGHT IT OUT!

Postwar prosperity will depend upon the rapid resumption of peacetime production and services. Although our plant is engaged in war work, our engineers and designers are planning for postwar. We're not talking now, but we assure you the postwar A.B.T. coin-operated machines and other products will be comparable to any others and superior to most in the industry. After "V DAY", we'll unbutton our lips and you'll know what goes on behind the closed doors of A.B.T. BUT . . . our doors are open to you now if your machines need parts or servicing or if we can assist you in your postwar planning.

SOMETHING BRAND NEW FOR SLOT OPERATORS!!

First time in the history of slot machine operators we have a clear view Jack Pot Glass for Mills machines only.

This glass will not discolor and is 100 times stronger than the ordinary Jack Pot Glass; it cannot be drilled or cut with a glass cutter or diamond; when installed in a slot machine will stand the blow of a hammer, and last but not least at a price no more than the regular Jack Pot Glass. This glass is worth $3.50 retail. Our price to you is $1.00 each in quantities of ten or better. Write, wire or phone for large quantity price! The one deal you can't afford to miss!

ACT TODAY WITHOUT DELAY, IT WILL PAY!!

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
